LEWIS JONES, Pink Hill P. O., Lenoir county.

For Congress, HON. WM. S. ASHE.

The known but disguised Editor of the Free Press, was well aware, before he penned his articles in this morning's paper, relative to the Editor of the the most of us done ample justice. Journal, that Mr. Fulton left home on Wednesday last, and therefore could not, under any circumstanthe reports of Mr. LEAK's remarks in this place, as they appeared in this paper the very next day after address. will be to credit those of the Editor of the Free 4th at Long Creek. Press three weeks afterwards.

So far as regards the Editor of this paper not being identified with the interests of this place, by anything tangible or visible, we will venture to assert that he could compare quite as favorably as some others we have in our eye.

Daily Journal, 8th inst.

Seven Days Later from Europe. The steamship America arrived at Halifax on the

6th inst., with Liverpool dates to the 25th June. Business in the English Parliament was unimportant. The prevailing opinion was that the combined French and English fleets would enter the Dardinelles in consequence of Russia's occupation of the Danubian Provinces, after which Austria will offer to mediate and negotiations commence. It was

fully believed the crisis would terminate peaceably Several ministerial changes are announced in France. A statement has been to the effect that the Emperor intends to submit the question of peace or war with Russia, to the popular vote. It is also rumored that the French Government had a copy of the Russian manifesto ten days ago, and had recommended the Porte to accele terms in the form of a note instead of a treaty.

RUSSIA AND TURKEY .- A statement from St. Petersburg to the 14th, says that no final resolution respecting the occupation of the Danubian Provinces would be taken until the refusal of the Porte to the ultimatum was received. The ultimatum was finally rejected on the 16th. It was thought that the Russian policy was to exhaust the resources of Turkey, by causing an immense outlay for its defence. It was reported that the Russians had entered Moldavia and were proceeding to Bucharest .-The Czar reviewed the balance of his fleet at Constadt on the 12th. Menzikoff had been appointed Governor of Crimea. Advices from Odessa mention the Russian troops.

English residents are greatly alarmed, and had enrolled volunteers and landed guns from their ships. ted Messrs. Cunningham, Westmore, and Warden a to fail in your sterling district. committee to act when necessary. The Americans had given direct aid to the Chinese executive. The British had resolved to preserve neutrality.

OUR BOOK TABLE .- L. H. PIERCE, Bookseller, Market street, has laid on our table, "Vivian Grey," by or Insolvent;" and "Harry Ashton, or the Will and the Way." The above works are well spoken of by the press. For sale as above.

Peaches!-Coroner John C. Wood has presented us with several very nice peaches taken from his orchard at Little Bridge. They are not as large as some taken from the same orchard last year, owing. Virginia, rest assured, will crape their flags, hang are excellent when they are general; but it frewe presume, to the late drought. They are, nevertheless, of a very nice flavor.

FIRE AT OSWEGO, NEW YORK .- A fire broke out at buildings, grain, &c., it is said, to the amount of \$1, 500,000. Several persons are said to be injured by the falling ruins.

Wm. B. Gulick, Esq., Editor of the Goldsborough (N. C.) Republican and Patriot, has received the appointment of a clerkship in the Navy De- good heart. Write another philippic good as that partment at Washington.

Mr. Gulick, we learn by the Republican and Patriot of the 5th inst., offers his interest, one half of said establishment, for sale. He says :

the whole establishment can be purchased. For from England. further particulars and terms, apply to Gulick & Richardson, Goldsboro', N. C., or William B. Gulick, Washington, D. C."

I am, Sir, most respectfully,

E. EMMONS. May 29, 1853.

To HIS EXCELLENCY, DAVID S. REID Sir: - These subjects of improvement of old lands takes a broad field. It might be expected, and perhaps demanded, that I should sustain and carry out the doctrine of the last communication by a statement of details, how old lands should be treated in order to bring up their productiveness to a standard higher than they possessed in the first periods of cultivation. I shall not attempt, however, to do they pose me, and I have only to tell them, that he at all upon this subject, I wish to make a remark or will keep things snugger about the house. Your acsubject. In the first place, agricultural writers buy what you want, and leave what is unheeded till when they propose improvements are very apt to money is plentier. You will find the necessities of make them too sweeping. They, for instance, propose deep draining, deep ploughing, lime as a fertilizer, etc., or some special mode of procedure in oranxiety. If Leak should be elected the democrats of der to obtain a given end. Now, general doctrines tions. It is not every field which requires draining. some may be injured by it; it is not every field which requires lime, and even when it is required the conditions are not the same. If the soil is destitute of organic matter or quite deficient in it. without giving also a supply of organic matter, it disappointed. He will say to his neighbors that he of her neighborhood. Meeting Mrs. Snaith one mores in the "Congressional Globe," and revamped as had tried lime and it did no good; he has lost his be told that such a result is doubly bad. The same may be said of phosphate of lime and of guano -If the farmer or planter is unacquainted with the vanced by Mr. Leak, but he was elected. Keep in composition of his soil: if he is ignorant of the conditions which are necessary to insure good rewhich appeared in your last Weekly, and believe sults, there are many chances to one that he will fail in the use of a recommended mode, or in the use of a good fertilizer. My doctrine, therefore, is that all general doctrines as set forth by writers should be reduced to specialities as far as possible that is, while the doctrine is set forth in general terms, the conditions which are required for their plaints to him successful working should be laid down also. But all this would require investigation; it would demand very close observation; and, perhaps, more still, the chemical examination of the soil. Now, I believe that because investigation is required, many failures happen to the very best modes; that, though there is a looseness in stating doctrines and facts by writers, yet there is only one source of disappointment; there is remaining a want of expenditure of thought upon the subjects by the farmer himself .-There are some men whom I believe are more lavish in the expenditure of money than they are in the expenditure of thought; though the rule generally We find in the Cleveland (Ohio) Herald an extend- is, not to expend either, especially in husbandry.
